

RITIK

Full Stack Web Developer

Bangalore, Karnataka | +91 9530743176 | ritiksalariya@gmail.com | [GitHub](#) | [LinkedIn](#)

PROFESSIONAL SUMMARY

Full Stack Web Developer with hands-on experience designing and building responsive, production-grade web applications using React.js, Node.js, Express.js, MongoDB, and PostgreSQL. Skilled in building and integrating RESTful APIs, relational and NoSQL database design, CRUD operations, and end-to-end deployment on Vercel and Render. Additional backend experience with Python and Django. Comfortable owning a feature across the entire stack, from UI to database, in Git-based team workflows.

TECHNICAL SKILLS

Languages: JavaScript, Python, HTML5, CSS3, Dart

Frontend: React.js, React Router, Bootstrap, Responsive Web Design, Fetch API

Backend: Node.js, Express.js, Django, REST API Design, CRUD Operations, JSON

Databases: MongoDB, PostgreSQL, MySQL, SQLite

Tools & Deployment: Git, GitHub, Docker, Postman, VS Code, Vercel, Render

Concepts: Full Stack Architecture, API Integration, Authentication, Agile/Debugging Workflows

PROFESSIONAL EXPERIENCE

Full Stack Developer Intern — PropAstra Venture Realty LLP

Mar 2026 – Present

Bangalore, India

- Developed responsive web application modules using React.js, translating design requirements into reusable frontend components.
- Integrated the React frontend with REST APIs and backend services built on Node.js, Express.js, and PostgreSQL.
- Built Flutter-based mobile application features, extending core backend APIs to a cross-platform client.
- Participated in debugging, testing, deployment, and ongoing feature enhancements using Git-based workflows.

Public Policy Intern — Deputy Commissioner Office

Dec 2024 – Feb 2025

Jalandhar, Punjab

- Digitized administrative workflows and improved local government verification processes.

Python Intern — GTB Institute

Jun 2024 – Jul 2024

Jalandhar, Punjab

- Developed backend modules using Python, Django, and MySQL, building scalable application logic and optimized queries.

PROJECTS

PropAstra Real Estate Platform

React.js, PostgreSQL, REST APIs

- Developed customer-facing web application features using React.js integrated with backend REST APIs and a PostgreSQL database.
- Conducted testing and debugging across the frontend and API layers to ensure a consistent, responsive UI.
- Live in production on the company's official website.

FanFest 2026

MERN Stack — React.js, Node.js, Express.js, MongoDB

- Developed a responsive full-stack web application for creator application management, covering the frontend, backend, and database layers.
- Built REST APIs for application submission, review, and status tracking; implemented a dashboard with form validation and a responsive UI.
- Deployed the application end-to-end, connecting the React frontend to Node.js/Express APIs and a MongoDB data layer.

Live Demo: <https://fan-fest-2026.vercel.app/>

HR Portal

React.js, Express.js, PostgreSQL

- Built a recruitment portal with a React.js frontend and an Express.js backend backed by PostgreSQL.
- Implemented CRUD operations and REST API integration for managing candidate and job data end-to-end.

House Price Prediction Model

Full Stack — Flask, Machine Learning, HTML/CSS, JavaScript

- Trained a machine learning model for real estate price prediction and built an HTML/CSS/JavaScript front end for user inputs.
- Connected model inference to the web layer via a Flask backend so predictions render directly in the browser; deployed live on Render.

Live Demo: <https://housepriceprediction-ge7w.onrender.com/>

Hospital Management System

Django, MySQL

- Built a full-stack hospital management platform with a Django backend and MySQL database for appointment scheduling.
- Implemented secure user authentication and appointment management workflows.

EDUCATION

Bachelor of Technology, Computer Science Engineering — Punjab Technical University

CGPA: 9.0

12th Grade – 12th Grade – DSSD Senior Secondary School

93.2%

10th Grade – Arya Senior Secondary School

95%

ACHIEVEMENTS AND CERTIFICATES

- NCC 'B' Certificate (Grade A) and 'C' Certificate (Grade B)
- Python Developer Internship Completion Certificate
- Public Policy Internship Completion Certificate
- Elected Class Representative
